				Deposit for 1 song:	£150	
Add ons:						
Mastering	£50 - £100 per track					
Production/Composition	£30 per hour					

IMPORTANT:
I estimate that this will cost the minimum quoted rate; however, I will know more once I have received the assets. If I believe it will exceed the minimum rate, then I will always make you aware and explain why.
During the mixing process, this sheet will be updated, and once completed, the final price will be calculated. If I believe certain aspects are taking longer than the minimum estimated hours, then I will always make you aware before continuing.
The final price will not exceed the maximum quoted rate.
The deposit is required before I start mixing.
